Comments and remarks

I would like to amend my claims as follows.

Amendments to claims

Claims 1-10 Cancelled

Claims 11- 14 New

What is claimed is:

11. An illuminated arrow nock installed in the bore of a tubular arrow shaft:

Said assembly comprising:

A light diffusing translucent or clear archery arrow nock; a dowel or bushing embedded inside tubular arrow shaft; a power source; an L.E.D lamp; an end cap; a single pole switch; an anchor pin; a hole in said nock to accept said anchor pin:

12. An illuminated arrow nock, as set forth in claim 11, whereas a round dowel or bushing of the same diameter as the inside diameter of tubular arrow shaft is permanently embedded inside said tubular arrow shaft to restrict all forward movement of said nock and battery within the tubular arrow shaft.
